

EUBCE 2021

29th European Biomass
Conference & Exhibition

26 - 29 April

MARSEILLE | ONLINE

Host a parallel event at EUBCE 2021!

Each year, the official EUBCE programme is complemented by a select number of engaging side events directly related to the goals, objectives, and themes of the conference.

In 2021, all parallel programming will be live streamed through the conference platform. Presenters will be able to screenshare and engage directly with their audience for Q&A and in-dept discussion.

Submit your proposal now!

Why should I organise a parallel event or workshop?

- ✓ Promote your idea and/or work to the largest international community of biomass and bioeconomy stakeholders in the world.
- ✓ Engage and convene stakeholders to gather input; generate new ideas; disseminate solutions; and/or leverage lessons learned.
- ✓ While organisers hold primary responsibility for promotion, parallel events and workshops are advertised on the conference webpage, EUBCE Guide, as well as through related news, social, and media channels.

How do I apply?

Send an email to: clara.aguado@etaflorence.it
sinuo.sun@etaflorence.it

Be sure to clearly provide the following information about your parallel event or workshop:

- Title
- Main topic as relevant to EUBCE 2021 (see the full list of 2021 conference topics and subtopics [here](#))
- Aim and desired outcome
- Format (seminar, panel discussion, roundtable, etc.)
- Estimated duration
- Estimated number of attendees
- Target audience
- Organiser, co-organiser, and partners (specifying point-of-contact)
- ◀ • If this will be an open-access or invite only session or event
