

Exhibit at **EUBCE 2024**

24 – 27 June Conference and Exhibition, Marseille, France

EUBCE 2024

32nd European Biomass Conference & Exhibition

www.eubce.com

Welcome to the EUBCE 2024

On the week of June 24, 2024 biomass and bioenergy thought leaders and decision makers from around the world will come together to determine our collective future.

Stakeholders from industry, government, academia, and science have been meeting annually for over 3 decades to **share innovations, discuss market solutions, and accelerate policymaking** for biomass, **towards a carbon neutral reality**.

“This event has been extremely successful for us, it was great to meet in person, to discuss about our partnership, about the future but also to share our funding opportunities. So, for this, the exhibition and being exhibitor here at the event has been an immense pleasure and a great success for us”.

Elina Zicmane, Circular Biobased Europe Joint Undertaking, Belgium

“Excellent opportunity, excellent facilities, a really good experience meeting both industry and research, a well-coordinated event. Thank you”.

Huw Parry, Network New Europe, United Kingdom

[Watch the interview](#)

“Ciao, hello everyone, we are the first time to attend the EUBCE, as one of the sponsors, we got many potential clients in this exhibition and learnt many knowledge in this conference”.

Zhenggang Guo, Beston Group, China

Join our **EU projects area**

EUBCE is dedicated to showcasing European research projects advancing the green energy transition.

This initiative provides an opportunity to bring much deserved attention to projects focused on technologies, applications and solutions for the sourcing, production, and utility of biomass and bioenergy.
