

EUBCE 2025

33rd European Biomass Conference & Exhibition

9 - 12 June

Valencia Conference Centre

International Delegation Facilitation

www.eubce.com

The Premier Platform for Global Biomass Policy, Innovation & Industry

At **EUBCE 2025**, Europe's leading gathering of biomass experts, we offer **exclusive delegation services** for **ministries, economic development agencies, chambers of commerce, consulates, associations, and regulatory authorities.**

This is your opportunity to gain **first-hand insights** into the full **biomass value chain**, from resources and technology to policy frameworks and market deployment. **Meet key industry players, explore the latest innovations, and shape the future of biomass and bioenergy policies.**

Scientific conference programme at EUBCE

The scientific conference programme at EUBCE covers the entire biomass value chain, from resources and technologies to market applications and brings together the latest scientific and technological advancements, ensuring a strong connection between research, policy, and industry.

Recognizing that the bioeconomy transition requires a multidisciplinary approach, the programme integrates scientific, technical, economic, political, business, social, and educational perspectives. It is structured into plenary, oral, and visual presentations, highlighting cutting-edge research, emerging market trends, and policy frameworks.

EUBCE also features Parallel Events and Industry Sessions, offering a comprehensive view of international biomass and bioeconomy developments from multiple dimensions, fostering collaboration between scientists, policymakers, and industry leaders.

Technical Programme Coordination: **European Commission – Joint Research Centre (JRC)**

Industry Programme Support: **Circular Bio-based Europe Joint Undertaking (CBE JU)**

Be part of the global conversation on biomass and bioeconomy. Secure your delegation's participation today!

Find registration details at: www.eubce.com

We look forward to welcoming you to Valencia, 9-12 June 2025!

Sincerely,
EUBCE 2025 Organizing Committee

Delegation facilitation

EUBCE welcomes groups from companies, organisations and trade associations.

This service is designed specially to enhance the experience for attendees, and to help attendee groups achieve their business aims.

Support

- **Stay informed** – Learn about emerging trends, EU policies, and industry best practices from leading experts.
- **Strategic networking** – Connect with policymakers, global companies, and research leaders shaping the sector.
- **Access groundbreaking innovations** – Visit the exhibition featuring the latest EU-funded projects and industry advancements.
- **Engage in high-level discussions** – Participate in forums, technical sessions, and exclusive delegation roundtables.

Target groups

- Ministries & government authorities
- Economic development agencies
- Chambers of commerce & industry
- General consulates & trade offices
- Industry & business associations
- Regulatory and policy bodies

Privileges include

- **Complimentary** access to the exhibition
- **Free entry** to exhibition forums
- **Discounted** conference tickets
- **Hassle-free** advance registration
- **Technical tours** for an in-depth industry experience

What is so unique about EUBCE?

- It is a place where the state of the art and latest achievements can be discussed, presented, and debated.
- There is a broad topical coverage from science and technology to industry, products, applications, operations, economics, business models, markets, policy, and so on!
- The whole sector is genuinely covered.
- It is an excellent place to get an overview on everything that matters in biomass.
- A meeting point for biomass specialists from around the world.
- Presentations here allow science to be openly accessible to all.
- It is a perfect place to find opportunities for new ideas and collaborations.
